DURPHY
PACKAGING CO.

YOUR ONE RESOURCE FOR PACKAGING SOLUTIONS

Durphy Packaging is a leader in the packaging industry. From big to small; many to few, we provide a multitude of options to meet your unique packaging needs. As a turnkey packaging operation, we offer a large inventory of products and tooling on-site to efficiently produce quick packaging solutions. For a custom design, provide us with your product or CAD drawings and we will develop the perfect solution for your product.

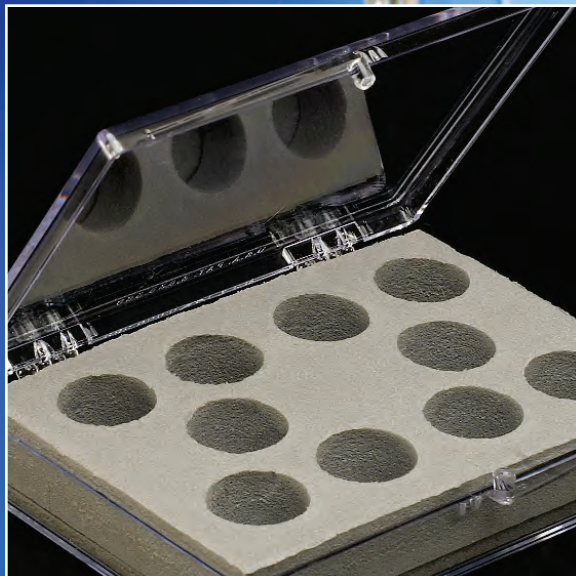

Since 1961 we have serviced the following industries with boxes, foam products, thermoforming, flexible and rigid containers, polycons, jars, cases and much more.

Medical/Surgical	Electronics
Government	Fibers
Optical	Medical Devices
Machinery	Dental
Culinary	Chemical

As a certified Preferred Supplier you can trust in our guaranteed quality and delivery, fast and friendly customer service and competitive pricing to give your product the edge it needs in today's marketplace.

PROTOTYPES & CUSTOM INTERIORS

Durphy Packaging is your committed partner to help you develop the right custom package for your product while in the design phase. Our expert packaging specialists assess your individual needs and design prototypes onsite, so adjustments are made quickly and inexpensively. Whether you need custom interiors, thermoforming, labeling, printing, custom foam inserts or case inserts our staff is here to make the process seamless and smooth.

PLASTIC HINGED BOXES

All plastic boxes are injection molded and made of general purpose polystyrene. Durphy Packaging has a large inventory of stock sizes for quick delivery. Custom interiors can be designed with foam or thermoformed inserts for display.

Dimensions are inside unless otherwise indicated.

FOAM

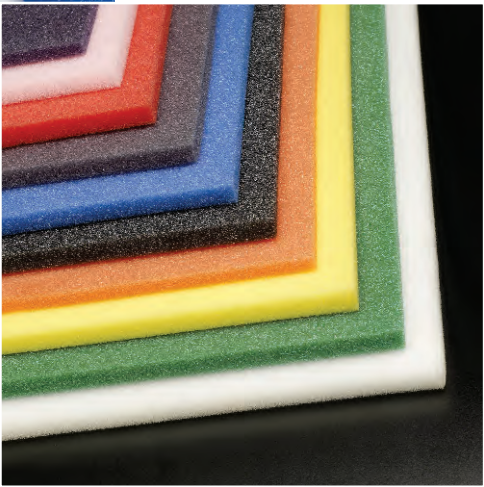

Foam is a perfect packaging solution for inserts or stand alone pieces that need to keep products in place with an appealing and secure display structure.

We offer various densities, colors, and foam materials to suit your products needs.

- Polyurethane ether and ester
- Polyethylene (open and closed cell)
- Cross linked polyethylene
- Conductive
- Anti-static polyurethanes
- Ethylene vinyl acetate (EVA)
- EPS

Depending on style and layout your foam can be custom cut in a variety of applications.

- Saw cut
- Die cut
- Bevel cut
- Convoluted
- CAD cut

As an insert your foam can be silk screened with your logo or artwork for a distinct look.

We can also laminate foam to foam, corrugated, paper board or plastic. The foam insert then can be assembled into our cases, plastic boxes, tubes, jars, vacuum formed trays, mailers, or cartons for a completely finished look.

Basic foam colors are always available and in stock, but we can special order a variety of colors to fit your project needs. Our packaging specialists are here to help you develop and design the perfect packaging solution to showcase your product.

Same day service available on stock foam products.

THERMOFORMING

Need a perfect fit for your product? Thermoforming may be the best packaging solution for you. We thermoform PVC, HIPS, PETG, conductive and anti-static materials in gauges ranging from .007 to .125 and have small run capabilities.

As your packaging partner, we supply design assistance through the whole process from prototype to production, with little or no charge for prototypes, depending on complexity. As your one resource we can provide fast turn around, competitive pricing and solve your packaging solutions with ease and expertise.

Standard colors and stock blister molds are available, and we specialize in custom color matching for your specific product needs.

Prototypes are produced quickly with minimal cost and accurately since all vacuum forming molds are machined in house from high grade aluminum. Our state of the art CAD/CAM is used with CNC milling equipment to hold tight tolerance and provide unmatched repeatability. Whether we design your project from start to finish, or work with customer supplied CAD drawings, production parts are usually finished in as little as 4 to 6 weeks after initial drawings are provided.

FLEXIBLE CONTAINERS

Flexible containers are perfect for lighter weight materials so you can showcase your product through the clear cellulosic plastic tube. Durphy Packaging has a wide range of stock diameters, lengths and closures to suit any product needs and we can custom cut to your specifications.

Choose from a wide variety of clear tubes with multiple stock diameters and cut to any specified length.

- Round Tubes
- Square Tubes
- Rectangular Tubes
- Triangular Tubes

Each tube can then be accompanied with a variety of closure options.

- Polyethylene plugs for round, square, rectangular and triangular tubes
- Polyethylene caps for some round tubes
- Polypropylene threaded screw caps for some round tubes
- Polyethylene flip top rectangular plugs
- Threaded screw caps made of black metal or nickel either lined or unlined
- Hang-up tabs for easy display in retail stores

Color choices range with material choice.

- Natural
- White
- Red
- Blue
- Yellow
- Green
- Black
- Dark Blue

And for the finishing touch, each tube can be silk screened with your logo, product design or any artwork to feature your product.

BEADED VIALS

Clear polystyrene beaded vials with white polyethylene snap caps. Vials are bulk packed in bag within carton and the caps are packed separately.

PT#	CAPACITY	DIAMETER & DEPTH
AS-3	3 DR.	3/4 x 1-7/8
AS-5	5 DR.	15/16 x 1-15/16
AS-7	7 DR.	1-1/8 x 1-15/16
AS-10	10 DR.	1-1/8 x 3-3/16
AS-13	13 DR.	1-11/16 x 2-13/16
AS-15	15 DR.	1-7/16 x 2-7/16
AS-16/20	20 DR.	1-5/8 x 2-1/2
AS-30	30 DR.	1-15/16 x 2-15/16
AS-40	40 DR.	1-15/16 x 3-13/16

Regular walled jars are available in clear polystyrene, clarified/natural or white polypropylene with a continuous thread finish-400. Our stock size jars have many closure options including white or black, ribbed or smooth and lined or unlined, whichever fits your specifications the best. Volume is based on polystyrene, with the polypropylene approximately 5% less due to shrinkage.

POLYCONS

Polycons are a living hinge container made of polyethylene. Stock colors available are natural (semi-transparent), white, black, red, green, yellow, and blue. Custom colors are available upon request. Each container can be printed or labeled with artwork for distinction and can be packed open or closed.

POLYCON SIZE	DIAMETER & DEPTH
Micro (1/4 oz)	1-1/2 x 1/2
Mini (1/2 oz)	1-1/2 x 3/4

CASES

Ready to make your product look custom in a case? Our durable cases are made of polyethylene, have one or two latches and carrying handles depending on size. With over 50 stock sizes available in black and no minimum quantity orders, you are sure to find the perfect case. For larger orders over 500 we offer a variety of colors. Durphy Packaging can design the interior with:

- a custom or plain foam insert
- routed or diecut lid flaps for literature
- or hot stamped diecut plastic labels for recess in lid.

MAILERS

Our sturdy mailers are constructed of single walled corrugated cardboard with a white outer shell and kraft inner shell. Assembly is easy with a simple one piece folding system and available locking tabs. We stock a large variety of sizes and offer custom diecut sizes to fit your product needs. Each mailer can be customized with foam or corrugated interiors for safe shipping.

MAILER NUMBER	DIAMETER & DEPTH
W-2	3 x 3 x 1
WT-433	4 x 3 x 3

FINISHES

Finishing your product and branding it with your company logo or image is crucial. As your one resource packaging specialist, we produce your package and insert and finish them with the little touches needed.

We can silkscreen or hot stamp your box, tube, case, foam, or mailer from your artwork or create a new design for you. With Durphy Packaging your entire packaging project from start to finish is developed and delivered with more than 45 years of experience.

Trust in the quality and workmanship only Durphy Packaging can deliver.
